

### Features

- Measure the height of 6 cables at the same time
- Measure the distance between cables and cables
- Suitable for different uses of cables
- Large measuring head is used
- Temperature compensation, within -10°C~40°C
- Measure the size of a room and the distance from one object to another

### AR600E

### Ultrasonic Cable Height Meter

SPECIFICATIONS	AR600E
Measuring range	3~23m
Range (25mm cable min)	3~23m
Range (12mm cable min)	3~12m
Range (5.5mm cable min)	3~12m
Range (2.5mm cable min)	3~10m
Horizontal measuring range	3~18m
Operating temperature range	-10°C~40°C
Resolution (range<10m)	5mm
Resolution (range>10m)	10mm
Measuring accuracy	2%
Minimum gap between wires	150mm
BOT mode: measuring the height of the most lower 6 cables	√
TOP mode: measuring the height of the most higher 6 cables	√
Auto power-off	120s
Low battery alarm	7.2V±0.2V
Conversion of metric imperial units	°C/°F
Displays the real-time temperature	√
Operating voltage	9V 6F22
Backlit display	√
Battery life	20 hours (continuous use)
Product weight	190g
Product size	49x70x196mm
